Foreign Labor Conditions' Prototype Contributions for  
Section 44 (Manpower) on the Arabian Peninsula and Venezuela

1. Mr. William C. Shelton, Chief/Division of Foreign Labor Conditions, informed me that subject prototype studies were completed. He will forward 3 copies of each to Mr. Clinton for review, of which one copy will be forwarded to OBI for concurrent review.

2. Assistant Secretary George Lodge is anxious to have a meeting with Mr. Amory as soon as CIA and State can take a position on Labor's trial contributions which, if favorable, will result in shifting production responsibility for Section 44 from State to Labor.

3. I have this date advised Mr. Clinton about this.
